

# Diocesan Information Systems Conference

## Quickbyte Sessions

**Thursday, June 10, 2010**

**Original Description:** Join our new Quick Byte sessions and start your networking in high gear! Quick Byte sessions offer both exhibitors and conferees a fun, fast-paced way to connect in short, 20-minute “speed dating”-style sessions which we hope you will pack with really powerful information. Time for six Quick Byte sessions has been built into our schedule. Quick Byte sessions are reserved for organizations in the Terabyte sponsorship level however leftover slots may be available as an a la carte sponsorship choice.

**Possible uses for the time:** This is your time. Feel free to show a quick product or show a Powerpoint presentation or simply talk about your product/service features and benefits.

**Length:** You have 20 minutes and not much time for set up between each session. Try to keep your presentation to 15 min and allow 5 minutes for Q&A.

**Room Requirements:** Please let me know **by May 3, 2010** if you need any of the following:

- Laptop Computer
- Projector/Screen
- Internet
